**FOR YOUR WATER SECURITY!  
DOWNLOAD THE APP**

[www.hteecitysmartwaterapp.com](http://www.hteecitysmartwaterapp.com)

## CONTENT TYPE

In this Offline Android Version, the content is delivered in various forms such as infographics, cartoons, the combination of text & pictures, visualized tips and tricks for any users to understand and take actions on how to build your resilient community very easily.

You can easily access the contents once you have downloaded the app without any internet/wifi at any time. However, for those who want to use the website version, you will need the internet.

Follow these simple five steps to download and install the app on your mobile phone.

1. Go to [www.hteecitysmartwaterapp.com](http://www.hteecitysmartwaterapp.com)
2. Click on the **"Download app"** button in the pop-up box.
3. Click on the **"Download"** button on the next page
4. After it has been downloaded, go to the download folder on your phone and then click the app file and click the **"Install"** button. Here, you might need to enable **"install from unknown sources"**
5. After installing the app, you can see our Htee City app on one of your phone screens and now, you can start exploring all the information without the internet.
